PROFESSIONAL OBJECTIVE

I am a Fullstack JavaScript Developer with two years of experience developing web apps. I seek to collaborate as a web developer in teams passionate about creating digital products.

WORK BACKGROUND

Frontend Developer, *ShopMate*

FEB 2023 – PRESENT

- Developed mobile app and web app using modern web technologies, including React Native, React.js, and TypeScript.
- Created API with industry-standard security measures, such as rate limiting and JSON Web Tokens.
- Utilized advanced technologies such as Docker Compose, Sequelize, PostgreSQL, and GraphQL for optimal performance.
- Ensured seamless communication between the Frontend and Backend using Web Sockets.

Fullstack Developer, *Circuito Morelia*

OCT 2022 - DEC 2022

- Development of the PWA mainly using the PERN (PostgreSQL, Express.js, React, Node) stack for the entire project.
- Implementation of a dedicated API REST for the PWA.
- Authorization and authentication handling for administrators with passport.js.
